Dear Sir/Madam

BRIDGING COURSES FOR ENVIRONMENTAL ENGINEERING GRADUATES

This circular is to inform the industry that graduates of BEng degree in Environmental Engineering from Nanyang Technological University (NTU) can now attend 3 bridging courses conducted at Institution of Engineers (IES) Academy if they intend to be accredited as resident engineers (REs).

2 The role of a RE is to assist the Qualified Person in the supervision of structural works to ensure that the buildings/structures are constructed in accordance with approved plans. It is thus important that RE has the knowledge and experience in structural engineering concepts to carry out his duties effectively. In order to provide the flexibility for the graduates of BEng degree in Environmental Engineering from NTU to join the built environment sector as REs, the IES Academy will be conducting the 3 bridging courses, namely Structural Design II, Civil Engineering Construction Technology and Geotechnical Engineering. After passing these 3 courses, they can be accredited as REs to supervise structural works. Details of these courses can be found at http://ies.org.sg/pageview.php?page_id=452.

3 The first run of this bridging course is likely to be conducted at the last quarter of 2014 if there is a demand. Those who are interested or would wish to seek clarification could contact Mr Andy Ong, IES Academy, at Tel. no. 64611245 or email him at andy@iesnet.org.sg.

Yours faithfully
