To LTA.PROMPT Users

Dear Sir/Mdm

Seminar on Management of Works affecting Public Streets (2009)

LTA will be holding a seminar on the afternoon of 3 July 2009 at the Grand Copthorne Waterfront Hotel Singapore located at 392 Havelock Road.

Through the seminar, we aim to share good practices to adopt while carrying out works on public streets. We will also highlight recent changes in Authority's requirements/policies on the management of works affecting public streets.

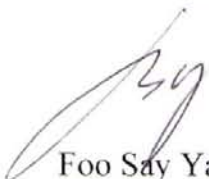

In highly urbanized Singapore, it is inevitable that construction activities will have an impact on traffic leading to inconveniences and possibly safety concerns to road users. It is essential for your members, who play a critical role in the construction industry, to keep abreast of latest developments in work practices and regulations so as to enable them to better manage their work sites.

We have invited speakers with extensive experience in their fields of expertise. Participants can look forward to sessions that promise to be informative and refreshing. It will be a great opportunity for participants to clarify any doubts they may have with the speakers on the requirements and good practices for works affecting the public streets.

We seek your support to encourage your members to sign up for the seminar. Attached are the brochures and registration forms.

Thank you

Yours faithfully

Foo Say Yaw (Mr)
For DEDUTY DIRECTOR
ROAD INFRASTRUCTURE MANAGEMENT

Organised by:

Road Infrastructure Management

Date:

3 July 2009

Time:

2.00pm - 6.00pm

Seminar on Management of Works Affecting Public Streets (2009)

Sharing of New Standards and
Good Practices

Please visit
www.LTAacademy.gov.sg
for more information and
register early.

The Objective

The seminar aims to keep the industry updated on current policy for management of works affecting public streets, informed of upcoming new regulation in controlling engineering works on land adjoining public streets as well as to raise awareness of the importance of practising good planning and control for works on public streets.

The Speakers

Several speakers with considerable experience in their respective fields of work will share their knowledge on and discuss topics that are relevant to the construction industry.

The Topics

- Introduction to the new guidelines and changes to Code of Practice (COP) for Works on Public Streets
- Initiatives to Safeguard Road Structures and Public Streets
- Protection of underground power cables and gas pipes
- Discussion on good practices when working on public streets
- Sharing on ION Orchard development
