Dear Sirs

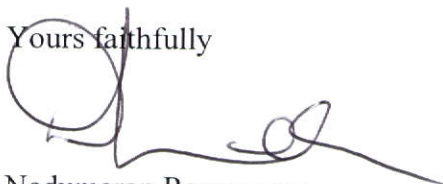

**Enhancements to “Permit for Road Occupation Management Portal (LTA.PROMPT)”
- Faster Approval of Applications for Construction of Entrance Culverts with No Lane Closure Required**

In our continual effort to provide better service to users of LTA.PROMPT and the construction industry, I am pleased to announce that LTA has enhanced the LTA.PROMPT system to facilitate the speedy approval of applications for construction of entrance culverts that do not require road lane closure. Applicants can expect to have such applications approved within 1 working day.

Applicants need only to select the specially created “Work Type” category <Construction of Entrance Culverts with No Lane Closure Required>, affirm that no road lane closure is required and ensure the relevant documents such as public liability and workmen compensation insurance policies, relevant building plan clearances, etc are submitted. Please note that this service is only applicable for applications submitted to LTA.

We will continually review and fine tune the system for the benefit of users and the construction industry.

Yours faithfully

Nedumaran Ramasamy
Deputy Director
Road Infrastructure Management
