Dear Sir

BS EN 545:1994 - "SPECIFICATION FOR DUCTILE IRON PIPES, FITTINGS, ACCESSORIES AND THEIR JOINTS FOR WATER PIPELINES"

Currently, ductile iron (DI) pipes/fittings approved by PUB for use in water service installations comply with BS 4772:1988 - "Specification For Ductile Iron Pipes And Fittings". This standard has been superseded by BS EN 545:1994 - "Specification For Ductile Iron Pipes, Fittings, Accessories And Their Joints For Water Pipelines". PUB has, with immediate effect, adopted BS EN 545:1994 for the testing and evaluation of DI pipes/fittings for use in water service installations.

2 The use of approved DI pipes/fittings which comply with BS 4772:1988 are however allowed for plans submitted on or before 1.7.2001. Plans submitted after 1.7.2001 will be required to incorporate only approved DI pipes/fittings which comply with BS EN 545:1994.

3 Should you need any clarification, please do not hesitate to contact us at Tel. Nos. 7313557/77.

Yours faithfully

YAP AH MING
ENGINEER (INSPECTORATE)
for DIRECTOR
WATER DEPARTMENT
