President, Association of Consulting Engineers, Singapore

Dear Sir/Mdm

IMPLEMENTATION OF THE STRUCTURAL EUROCODES FOR FIRE SAFETY

The Building and Construction Authority (BCA) is mandating the use of the Structural Eurocodes (SS EN) to replace the British Standards (BS) as the design standard for structural plan submission with effect from 1 Apr 2015. With the switchover to Eurocodes in Apr 2015, the relevant Qualified Persons (QPs) need to be trained on the aspect of structural fire design.

2. To prepare them in making plans submission relating to structural fire protection before the implementation of the Structural Eurocodes, a 2-day course on 17 and 18 Nov 2014 has been prepared. This course will include actions on structures exposed to fire (EC1 Part 1-2), Structural Fire Design on Concrete Structures (EC2 Part 1-2), Structural Fire Design on Steel Structures (EC3 Part 1-2), and Design of Composite Steel and Concrete Structures (EC4 part 1-2). Additional runs of this course can be conducted in early Jan 2015 if necessary. Details can be found on SCDF website: <http://www.scdf.gov.sg> and available in CORENET-e-info: <http://www.corenet.gov.sg/einfo>.

3. Please convey the contents of this circular to members of your Institution/Association/Board. For any inquiry or clarification, please contact MAJ Chong Kim Yuan at Tel: 68481476 or email address [Chong_kim_yuan @ scdf.gov.sg](mailto:Chong_kim_yuan@scdf.gov.sg).

Yours faithfully,

(transmitted via e-mail)
