Dear Sir/Madam

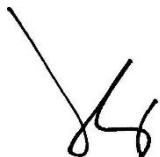

**RE-NUMBERING OF SINGAPORE STANDARD CP48 : 2005 - CODE OF PRACTICE FOR WATER SERVICES TO SINGAPORE STANDARD 636 : 2018 - CODE OF PRACTICE FOR WATER SERVICES**

This circular is to inform you that the Singapore Standard CP 48 : 2005 - Code of Practice for Water Services has been re-numbered to Singapore Standard 636 : 2018 - Code of Practice for Water Services.

2 Besides the new Singapore Standard number, the contents of the Code of Practice have also been reviewed and updated. In particular, we wish to highlight that the requirement for water service workers (Professional Engineers / Licensed Plumbers) to carry out water sampling test for leaching of heavy metals have been incorporated in SS 636. All Professional Engineers and Licensed Plumbers are reminded to take note of this and ensure compliance.

3 I would appreciate it if you could bring the contents of this circular to the attention of your members.

Yours faithfully

Kuang Kim Yaw (Mr)  
Senior Principal Engineer (Customer Projects)  
Water Supply (Network) Department  
PUB, Singapore's National Water Agency
