

#### REVISED APPLICATION FORMS FOR SUBMISSION TO PUB

Owners, Developers, Architects, Engineers, Contractors and Builders

Dear Sir/Mdm

### **Revised Application Forms for Submission to PUB**

We refer to the joint circular by PUB and NEA on the formation of separate Technical Agencies (TAs) dated 30 June 2016.

2. In view of the formation of separate TAs, PUB has updated the following application forms for sewerage, sanitary and drainage submissions. These application forms are to be submitted to the new <u>PUBBPU-PUB-SINGAPORE NATIONAL WATER AGENCY</u> mailbox in CORENET.

| Submission For                                | Old Forms          | New Forms        |
|-----------------------------------------------|--------------------|------------------|
| Application for Development Control           | ENV-CBPU-DCCLR-NEW | PUB-DCCLR        |
| Clearance (DC)                                | ENV-CBPU-DCCLR-    |                  |
|                                               | RESUB              |                  |
| Application for Detailed Plan Clearance       | PUB-BPU-CLRDP01    | PUB-DPCLR        |
| Sanitary Work                                 |                    |                  |
| Sewer / RC Trench / M&E Work                  |                    |                  |
| <ul> <li>Works Affecting Minor and</li> </ul> |                    |                  |
| Other Drainage Works                          |                    |                  |
| Application for Drainage Clearance for        | -                  | PUB-DRATOP       |
| ТОР                                           |                    |                  |
| Application for Sanitary and Sewerage         | PUB-BPU-           | PUB-BPU-         |
| Clearance for TOP & CSC                       | COMPOFWORK         | COMPOFWORK       |
| Application for Drainage Clearance for CSC    | PUB-DD-CSIDRA      | PUB-DD-CSIDRA    |
| Application for Works Affecting the           | PUB-SEW-CLRDEV-    | PUB-SEW-CLRDEV-  |
| Public Sewerage System                        | OVER-SEW           | OVER-SEW         |
| Application for Permit to Work in Public      | PUB-SEW-FORM_B     | PUB-SEW-FORM_B   |
| Sewerage System                               |                    |                  |
| End of DLP Inspection for Public Sewer        | PUB-SEW-FORM_DLP   | PUB-SEW-FORM_DLP |
| Correspondence to PUB                         | ESS-CORR           | ESS-CORR         |
|                                               | ENV-CBPU-CORR      |                  |

3. The new forms will be available on CORENET from 1 Jan 2017. You can refer to our user guide and PDF versions of the forms on PUB's website. Please note that the old forms will no longer be valid from 1 Jan 2017.

https://www.pub.gov.sg/compliance/qualifiedpersonsportal/newforms

### **Simplified Submission Scheme**

- 4. PUB will also introduce a Simplified Submission (SS) Scheme from 1 Jan 2017. Projects that meet certain criteria can obtain lodgement for drainage or sewerage/sanitary works without the need for technical clearance from PUB at DC and DP stage. The building plans for buildings/structures which satisfy the criteria can be submitted through the SS Scheme. Projects which are under the Simplified Submission Scheme are required to obtain TOP and CSC clearance for drainage and sewerage/sanitary works carried out on site. The relevant clearance for TOP/CSC from PUB, among other documents, shall be submitted to BCA for the application of TOP/CSC. Please note that submission under the SS scheme are subjected to audit check by PUB at TOP and CSC clearance stage. Details of the SS Scheme can be found in Annex A.
- 5. With the introduction of this Simplified Submission Scheme, the simplified BP submission for A&A to landed housing developments, administered together with BCA, will cease.

### Clarification

6. Should you need any clarification on the above matters, please contact PUB at pub bpu@pub.gov.sg or PUB's hotline 67313512.

Thank you.

Goh Pin Cheh Head (Building Plan Unit) PUB

### Annex A – Simplified Submission (SS) Scheme

- 1 Projects that meet the criteria listed in Fig 1 can apply to go through SS Scheme. You can make a SS for either the sewerage and sanitary works, drainage works or both. For example, if your project meets the SS criteria for sewerage, sanitary and drainage, you can make a SS for both type of works. If your project meets the SS criteria for drainage only, you can make a SS submission for drainage and a DC submission for sewerage and sanitary works.
- Please note that you are still required to make the relevant submissions for TOP and CSC clearance. SS are subject to audit checks. Should there be false declaration or non-compliances to PUB's requirements, QP would be required to resubmit the project for DC clearance to regularise the non-conformances. TOP and CSC application would be withheld held till non-conformances are rectified to PUB's satisfaction.
- To make a simplified submission, please use the PUB-DCCLR form and indicate the type for works for which you are making a simplified submission (sewerage, drainage or both). You may wish to the detailed user guide on PUB's website for more details.
- 4 QPs are to ensure that the projects comply with criteria stated in Fig 1 before making a submission under the SS scheme. If your SS does not meet the criteria, you will have to make a new DC submission.

### Fig 1 - Qualifying Criteria for Simplified Submission Scheme

Projects must meet the following requirements to qualify for the Simplified Submission Scheme

### Sewerage/Sanitary DC/DP Submissions

- For A/A works to single landed residential house (such as single unit of terrace house, semi-detached house, bungalow), factory (not including workers' dormitory) or shops excluding food shops or food establishments, the proposal shall involve only construction works /activities within the existing building, such as:-
  - New or alteration to the sanitary facilities and sanitary pipes fully comply with the Code of Practice.
  - Does not have any building/ structure/piling works outside the existing building that affecting the public sewer/combined sanitary drainline.
  - No change to existing drainline connection to public sewer
  - No proposal of on-site facilities such as retention tank, holding tank and sewerage treatment plant (STP).
  - Total discharge of used water will not exceed 2l/s (incl ejector system)

# 2. For new erection or reconstruction of single landed residential house, it must meet the following conditions

- Does not have public sewer or combined sanitary drainline within the lot
- Reuse existing drainline connection which is connected to the public sewer located at public area. [For reuse of existing drainline connection which is made to the neighbour's inspection chamber, pre-consultation with PUB to obtain a written advice before lodgement is required.]
- No new sewer
- No proposal of on-site facilities such as detention tank, holding tank and sewerage treatment plant (STP).
- Total discharge of used water will not exceed 2l/s (incl ejector system)

### **Drainage DC/DP Submissions**

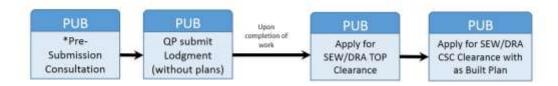

- A&A works to an existing building involving only the construction of additional floors without reconstructing the first storey and where there are no linkages to special underground facilities.
- 2. External structures that are:
  - (a) Not affecting public drain (i.e. at least 300mm away from drain wall) or;
  - (b) Not within DR or;
  - (c) Not affected by drain receiving runoff from neighbouring lots

Comparison between current submission process and the new simplified submission scheme.

### **Current Submission Process**

## **Simplified Submission Process**

PUB will conduct audit check for the lodgments under Simplified Submission Scheme

Submissions that are found to not have complied with the requirements/criteria for the simplified submission scheme will have to be resubmit from the DC stage

<sup>\*</sup>Not required for all projects

### SUBMISSION FOR DEVELOPMENT CONTROL (DC) PLAN

### Instruction:

- First Storey Plan/Site Plan for Section A and B can be submitted as one plan with clear layer and identification.
- Please check all the relevant information have been indicated and provided before submitting
- Detailed Plan may be submitted if all COP requirements are met and are to based on approved Development Control Plan.

| (     | on approved Development Control Plan.                                                                                                                                                                                                | SAME CONTRACTOR OF SAME |

- B. The proposal involves extension of building/structure over public sewer, it is mandatory to pre-consult and obtain PUB written advice if
  - RC trench is proposed
  - 2. The proposed structure is designed to be demountable
  - 3. The design discharge capacity of the sewage ejector exceed 2 litres/sec

New erection or reconstruction of single landed residential house (including houses with basement),

- C. The proposal meets the following conditions:
  - Does not have public sewer or combined sanitary drainline within the lot
  - Reuse existing sewer connection which is directly connected to the public sewer located at public area.
  - The design discharge capacity of the sewage ejector is 2 litres/sec or less.

Simplified Submission is a lodgement process based on the QP's declaration. QP is reminded to submit for PUB TOP clearance upon completion of work.

For proposal that does not meet any of the above criteria, normal DC submission should be made.

| 11. Design of embankment and structures near a drain or Drainage Reserve (within 2m) must not take into consideration the passive resistance offered by the existing or proposed drainage structures. (Note clause 5.3 of the latest edition of Code of Practice on Surface Water Drainage). The structural and stability calculations for an embankment or a structure within 2 m from the edge of Drainage Reserve shall be endorsed by a Professional Engineer and submitted to the Board for record at Detailed Planning stage. | Yes No                                                           |  |
