

# IACC WEBINAR

# 2021

COMPLIMENTARY

## Enhancing Regulatory Processes

27 OCTOBER 2021 • 2:30PM - 5:00PM

### Objectives

This webinar highlights agencies' efforts to streamline and enhance regulatory process for the built environment industry.

### Programme Highlights

2:30 PM

#### Welcome Address

IACC Alt. Chairman - Clement Tseng, Group Director, Building Plan & Management Group

2:40 PM

#### Key Learning Points from IACC Cases

The IACC Resolution Platform facilitates resolution of conflicting regulatory requirements that impede project progress. This presentation highlights the key learning points from recent cases tabled in the IACC Resolution Platform.

3:00 PM

#### Introduction to CORENET X

This presentation provides an introduction to CORENET X which will be a one-stop integrated digital shopfront that will advance the regulatory landscape of the built environment, transforming the way we plan, design and build.

3:20 PM

#### Working with Key Stakeholders to Enhance LTA Regulatory Processes

LTA's ongoing work to streamline the plan submission processes to achieve efficiency gains and plans to uplift industry plan submission standards.

3:40 PM

#### Streamlining PUB's Regulatory Processes to Enhance Productivity

This presentation outlines PUB's ongoing efforts to enhance productivity through streamlining of the existing regulatory processes. PUB will present on the recently launched self-declaration scheme for minor development works and streamlined submission process for temporary works affecting drains.

4:00 PM

#### Enhancing the Understanding of Fire Safety Regulatory Requirements

This presentation promotes better understanding on the rationale of some of the recent amendments to the fire code and highlights SCDF's interactive platform to reduce inefficiency or misinterpretation of the fire safety requirements.

4:20 PM

#### Panel Dialogue Discussion
